

# IMPACT Areas

Our four key community impact areas are: Education, Income, Health, and Safety Net. With our mission focusing on uniting resources and people to improve the lives of our county's citizens while focusing on the community's needs, we emphasize initiatives that help children and youth reach their potential, provide financial stability and independence, improve public health, and resolve crisis situations.

All of our funding of partner programs focuses on these areas as we make Pickaway County a better place to live, visit, and thrive

# Give

Supporting Pickaway County partner programs with the United Way of Pickaway County comes in many forms. From one time monetary donations to recurring donations through PayPal, giving of any amount can make a difference on a neighbor in need.

Additionally, with tax deductible payroll deductions of small amounts set up through your place of business, businesses can also leave a large impact with small donations.

And finally, through shopping with Amazon Smile at [smile.amazon.com](https://smile.amazon.com) and setting up the United Way of Pickaway County as your nonprofit of choice, our families we support receive 0.5% of every transaction you make at no additional cost to you!

# Advocate

Raising awareness on behalf of the United Way of Pickaway County is another great way to get involved! Advocacy for our families and the programs we support that provide food to the hungry, shelter to the homeless, and safe haven to victims of domestic violence can happen in your place of business, in your faith based organization, school, or civic group! Be sure to stay connected with us on Facebook, Twitter, and Instagram to help us share the story of Pickaway County's path to sustainable, healthy, and education-first living.

# Volunteer

Volunteering your time with the United Way's network of partner agencies is the most direct way to give back to your community. Help host a 5K fundraiser, spend time with a loved one battling Alzheimer's, or volunteer in a preschool program. The possibilities are endless when we do it United.

Be on the lookout for a new volunteering platform starting in 2020 on [PickUW.org](https://PickUW.org) to make volunteering even easier!
